75 years OF SERVING AMERICAN BUSINESS

THE year 1945 is the seventy-fifth Anniversary for R. L. Polk & Co. Three-quarters of a century of Service to cities and industries of America.

WE HAVE grown a lot in seventy-five years, and we plan to keep on growing. We feel younger than ever. Our real future still is ahead of us . . . because the real future of our Country lies ahead.

IN 1870 Ralph L. Polk, the Founder of this Company, laid down a fundamental policy of Good Service . . . Honest Service. That policy still is *basic* with us. Our growth in experience, in skill, in size, came about only because we built on that solid old foundation of Service.

SO, ON OUR seventy-fifth Anniversary, we thank you for doing business with us . . . for guiding us along the way. We want any and all of our Services to be even more valuable to you in the years to come . . . and we pledge our best efforts to that end.

INTRODUCTION

R. L. POLK & CO., publishers of the Chico and Oroville City Directories, as well as more than 700 other city, county, state and national directories, present to subscribers and the general public, this, the 1945 edition of the Chico and Oroville Directory, which also includes a directory of the rural free delivery box holders on routes which are pivotal from the Chico and Oroville Post Offices.

Confidence in the continued growth of Chico and vicinity's wealth, industry and population, and in the advancement of its municipal and social activities, will be created as sections of this directory are consulted, for the directory is a mirror truly reflecting Chico, Oroville and vicinity to the world.

The enviable place occupied by Polk's directories in offices, stores, libraries and homes throughout the country, has been established by rendering the best in directory service. With an unrivalled organization, and having the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Chico and Oroville Directory will fulfill its mission as a source of authentic information pertaining to the community.

Population

The estimated population of Chico is 18,000, based on the number of individuals' names in the alphabetical section of this directory, with due allowance for children and for women whose names are not listed separately from those of their husbands. Territory immediately adjacent, which is part of the city, as far as business and social life are concerned, is included in the directory.

Six Major Departments

The several essential departments are arranged in the following order:

THE BUYERS' GUIDE for Chico, pages 15 to 54, and for Oroville opposite page 330, printed on goldenrod paper, contains advertisements of leading manufacturing, business and professional interests of these cities and vicinity. These pages will be found particularly interesting and instructive to substantial purchasing factors. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best, and, as such, merits a survey by all buyers anxious to familiarize themselves with sources of supply. The community's activities, in many interesting phases, are authentically pictured. In an ambitious and progressive community, like the Chico and Oroville district, the necessity of having this kind of information immediately available is very great, and frequently, pressing. General appreciation of this fact is evidenced by the liberal support the directory enjoys in the many fields which it serves.

THE ALPHABETICAL LIST OF NAMES of residents, business firms and corporations for Chico is included in pages 55 to 271, on white paper. A similar list for Oroville is contained in pages 333 to 435.

THE DIRECTORY OF HOUSEHOLDERS, TENANTS OF OFFICE BUILDINGS AND OTHER BUSINESS PLACES, AND STREET AND AVENUE GUIDE for Chico covers pages 275 to 330, on pink paper. In this section the names of the streets and avenues are arranged in alphabetical order; the residences and business houses are arranged numerically under the name of each street and avenue, and the names of householders and business concerns are placed opposite the numbers. Home property ownership is indicated by the character ®, placed immediately after the name of the householder. The symbol ☎ preceding name denotes householders and places of business having telephones. A similar guide for Oroville is contained in pages 439 to 466.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 467 to 511, on white paper. This department lists the various manufacturing, mercantile and professional interests of the whole community in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. "The Directory is the common intermediary between Buyer and Seller." As such it plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory than through any other medium."

THE RURAL ROUTES DIRECTORY, pages 513 to 560, on white paper, includes the box holders on the rural routes served by the Chico and Oroville Post Offices.

THE NUMERICAL TELEPHONE GUIDE for Chico and Oroville is given in pages 561 to 591, on white paper.

Community Publicity

The directory reflects the achievements and ambitions of the community, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the directory in Directory Libraries, where they are readily available for free public reference and serve as perpetual and reliable advertisements of Chico, Oroville and vicinity, for business men, everywhere, realize that the city directory represents a community as it really is.

The Chico Directory Library

Through the courtesy of the publishers of the Chico and Oroville Directory, a Directory Library is maintained in the offices of the Chico Chamber of Commerce for free reference by the general public. This is one of the more than 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the city directory as an advertising medium, with assurance that it will bring a commensurate return.

THE NUGENT FUNERAL SERVICE

CHICO

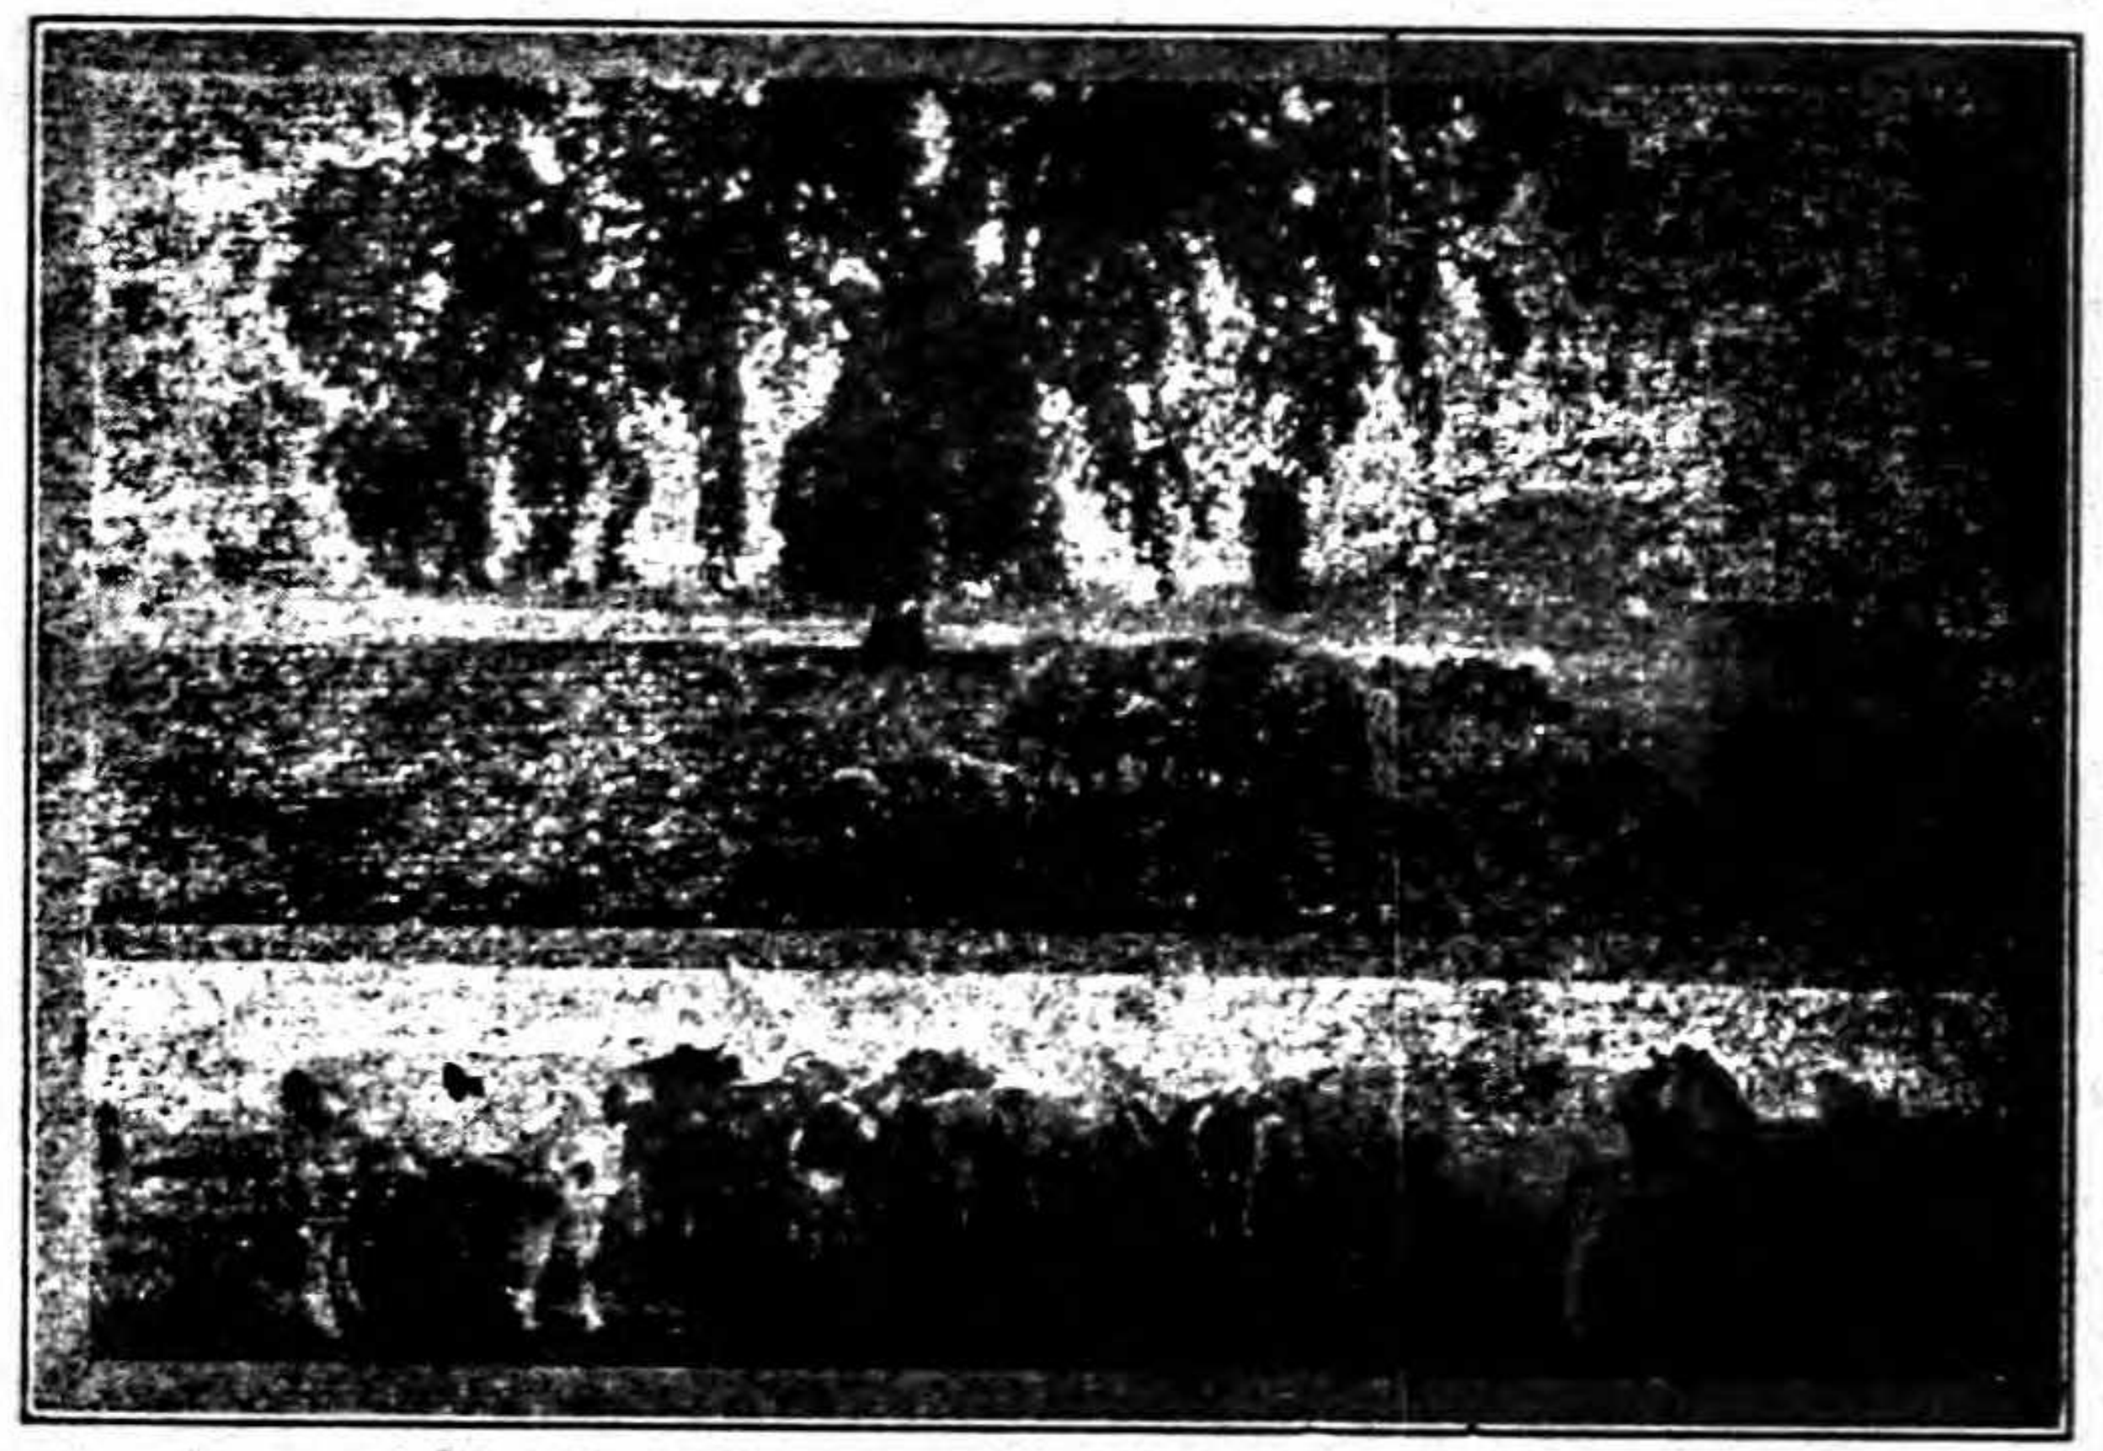
The Growing Commercial Center of the Golden Empire

By Chico Chamber of Commerce

CHICO, CALIFORNIA, in Sacramento Valley; 100 miles north of Sacramento; 176 miles north of San Francisco; on the main Southern Pacific line and California State Highway; entrance to Deer Creek Highway, shortest route to Lassen National Volcanic Park; northern terminus Sacramento Northern Railroad. Six Southern Pacific trains daily in each direction; over-night freight service from San Francisco.

Founded in 1849 by General John Bidwell, California pioneer, Congressman and candidate for President in 1892.

Growth has been rapid since subdivision of Bidwell Ranch of 25,000 acres into small farms; center of rich agricultural district; location of United States Plant and Seed Introduction Station, one of the most important stations maintained by the Department of Agriculture. Location of Pacific Coast Diamond Match Factory plant. Famous Magalia Channel mining section only 19 miles east of Chico. Chico is also the location of Chico Army Air Field, training field for combat air force fighter pilots of the 4th Air Force.

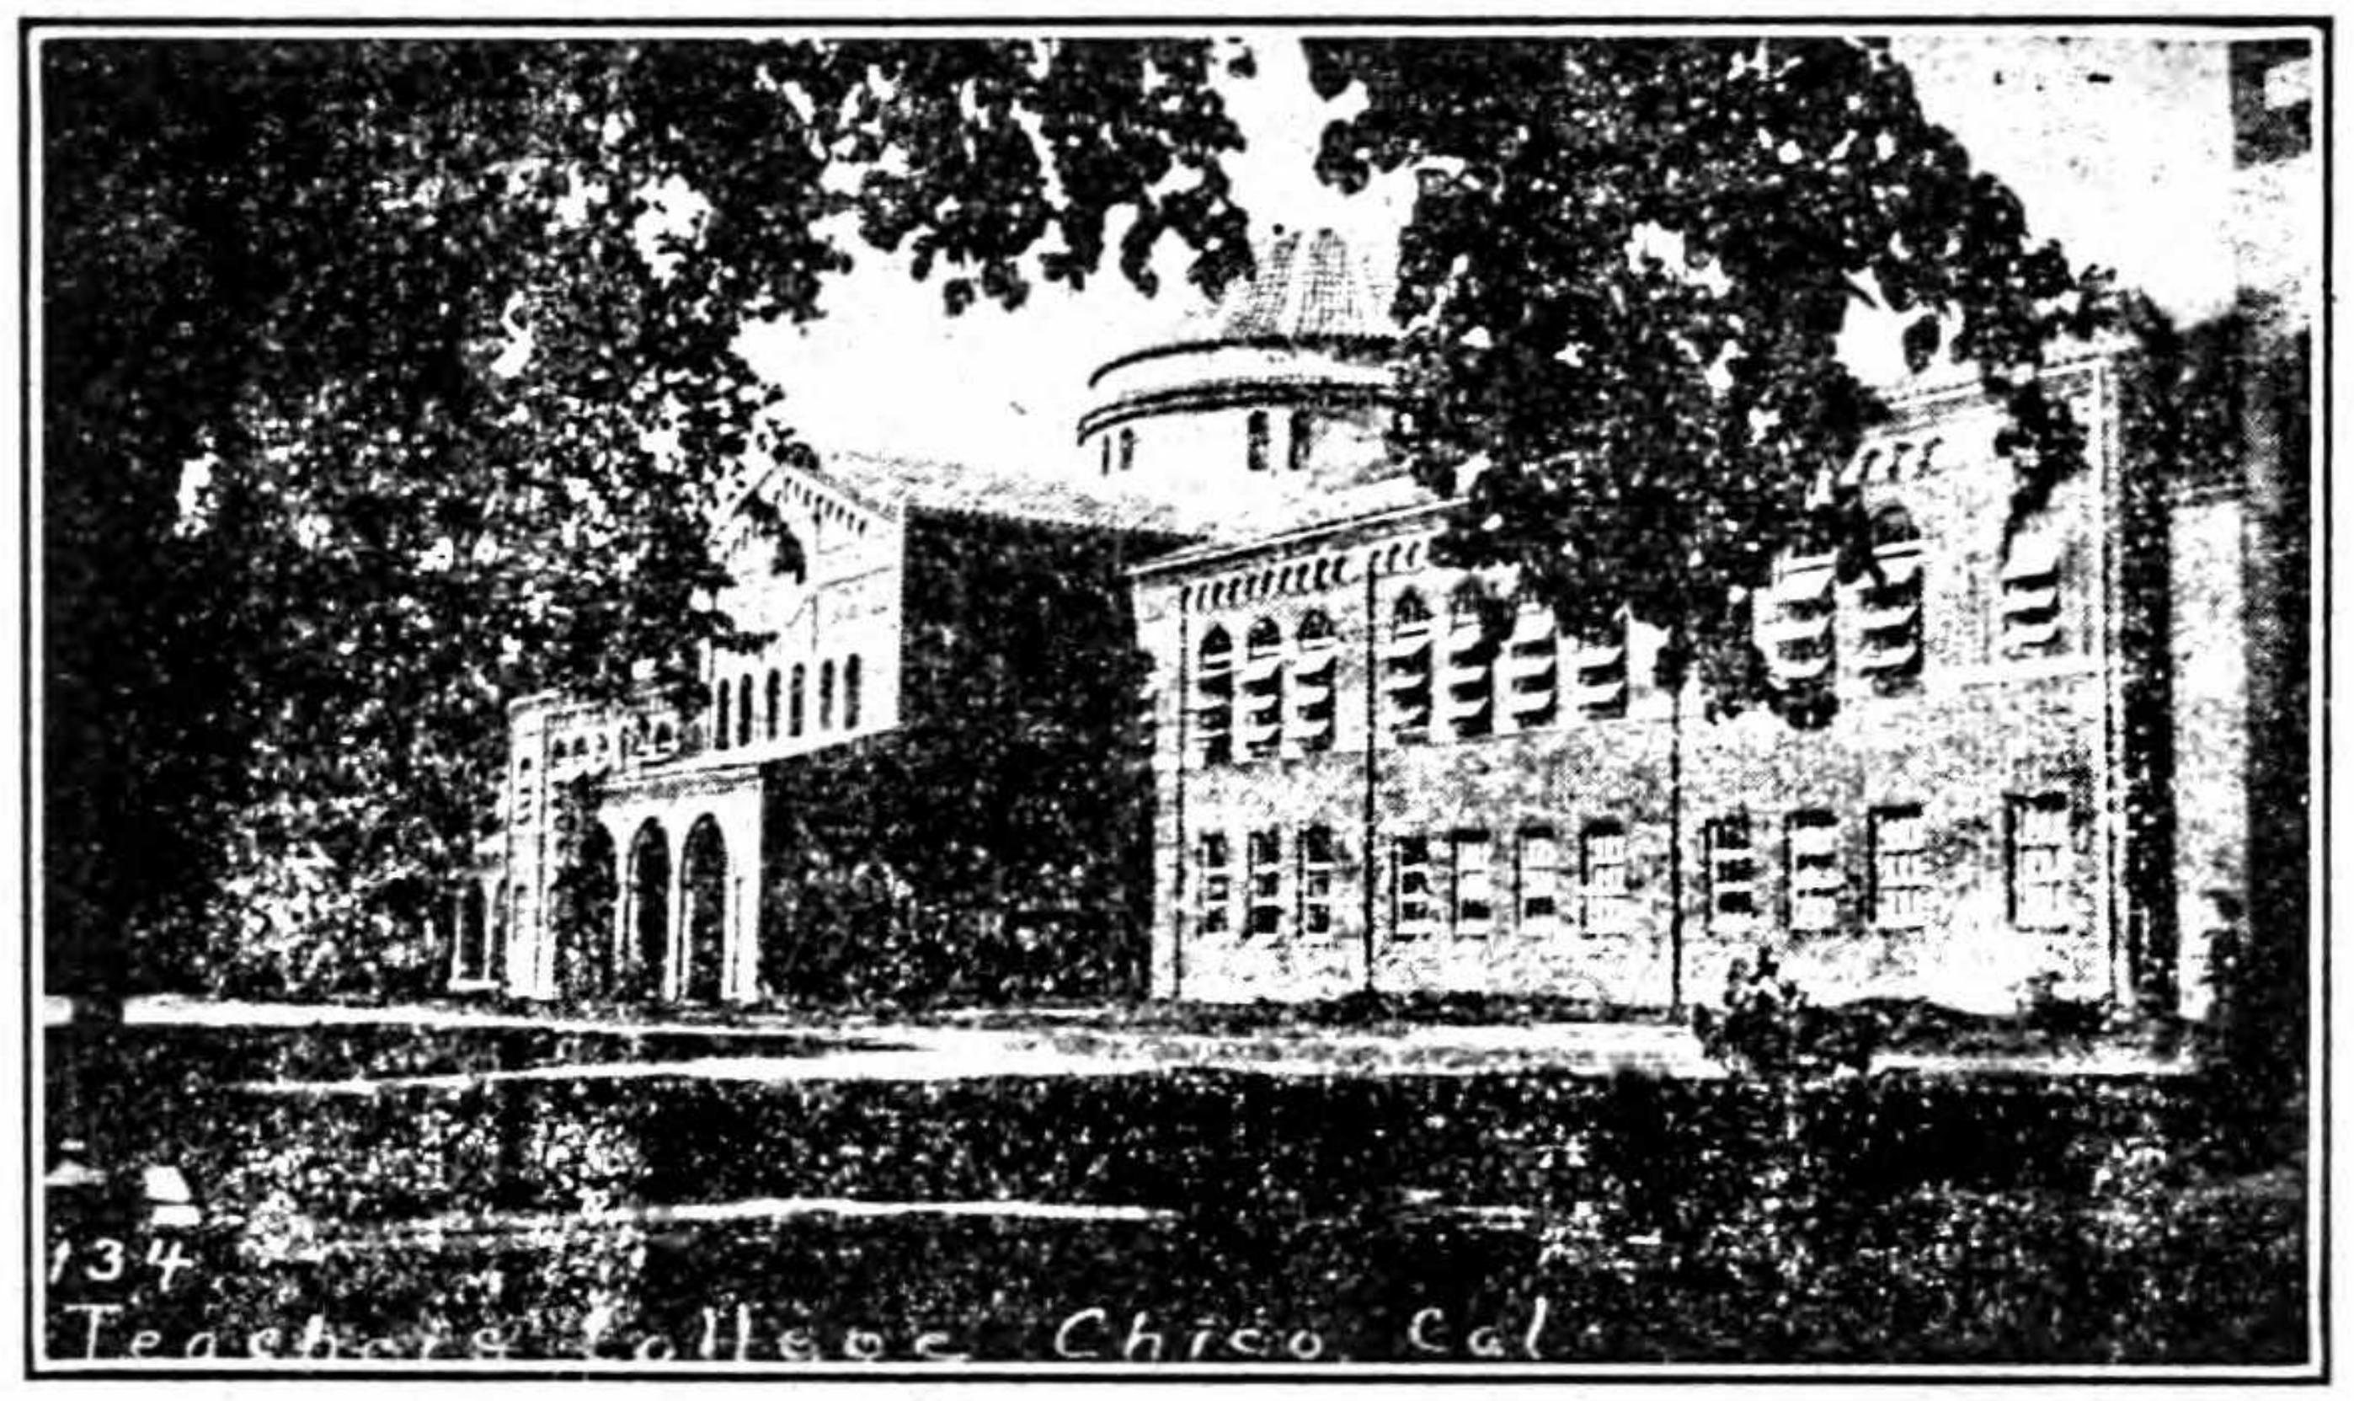


AGRICULTURAL SCENE NEAR CHICO

Has gained considerable fame for its wonderful natural park of 2,400 acres, presented to the city by General and Mrs. John Bidwell. This park extends from the business district ten miles into the Sierra Nevadas and contains deep canyons, and other scenic wonders, including Sir Joseph Hooker Oak, named after Sir Joseph Hooker, the English Naturalist, who first commented on its size. Hooker Oak is the largest valley oak tree in the world.

With an average mean winter temperature of 45 to 50 degrees and an average mean summer temperature of 70 to 75 degrees, Chico has one of the finest climates in California. The cool nights in summer and the relatively low humidity makes sleeping in the open air a joy the year round. During the warmer weather of July and August, a few minutes' ride into the mountains will bring you to cool camp sites among the pines and excellent trout fishing. Forty-five minutes' driving will take you to the summit and the snow line.

The soil of Chico district is rich loam six to twenty feet deep. One of the best bodies of land in Sacramento Valley; grows a great variety of crops including grain, vegetables, berries, almonds, alfalfa and fruits of all kinds.



ADMINISTRATION BUILDING, CHICO TEACHERS COLLEGE

Because of the remarkable character of Chico soil and climate the United States Department of Agriculture established here in 1904 its largest experimental station for the introduction of foreign plants.

CITY DIRECTORY USAGE SOARS TO NEW HIGH!

★ Post-war relocation of millions in their permanent homes; readjustment of business to normal conditions; the great new developments in civilian life just over the horizon of the future—these and other things make City Directory listing a "must" for all business people. Remember the huge upswing in City Directory usage. ★

WHY A *Buyers' Guide?*

★ ***It is customary to include a Buyers' Guide in the City Directory because:***

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

☆

The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . *EXTENDED*

CASHIERS! TELLERS!

CLERKS!

Do your employers furnish you with the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

CAUTION . . .

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. We ask no payment until the work is delivered, and our solicitors have strict orders not to take payment for either advertising or subscriptions.

Polk's Bankers Encyclopedia

MOST CONVENIENT AND COMPLETE BANK DIRECTORY

Arranged in one volume with sections devoted to United States and possessions, Canada and Banking Laws and other banks throughout the world not listed in the sections devoted to United States and Canada.

Contains lists of banks with bank statements, bank officers, bank directors, investment dealers, stock exchange members and bank attorneys.

Some other reference features include data concerning Federal Reserve System, Federal Deposit Insurance Corporation, Farm Credit Administration, Joint Stock Land Banks, National and State Bank Examiners, Airmail Schedules, Postage Rates, Clearing House Figures and other statistical tables.

Accessibility of information, maintained up-to-date by new, merged and closed bank supplements, coupled with durable, convenient indexing makes it the outstanding publication of its kind in the field.

PUBLISHED SEMI-ANNUALLY in MARCH AND SEPTEMBER

$15.00 per copy; $20.00 in Canada
and foreign countries.

Directory of Householders

Occupants of Office Buildings and Other Business Places

Including a Complete

Street and Avenue Guide

1945

Copyright, 1945, by R. L. Polk & Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the streets are included in one list. The profession or business of individuals or firms is given only at their respective places of business; to find occupation of others refer to Alphabetical List of Names.

Numerical streets are compiled following the Named Streets.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

The Symbol ♤ preceding name denotes householders and places **of business having** telephones.

GOOD BUSINESS INSURANCE—

Your advertisement in the City Directory with proper business listings insures your business against loss of trade.

The manufacturer or business institution that overlooks this fact is not building for the future.

The City Directory is active 365 days of the year—let it serve you as it does others.

Our representative will be pleased to explain the value of reference advertising.

OROVILLE

County Seat of Butte County

and

Gateway to the Feather River Wonderland

OROVILLE, western terminus of California's newest trans-Sierra Highway — the $8,150,000 Feather River Highway — nestles at the eastern rim of the Sacramento Valley on the banks of the tumbling Feather River. Founded in 1851, Oroville became the county seat of Butte County in 1856.

Oroville was the mecca for hordes of early California emigrants following Captain John Bidwell's discovery of gold in the South Fork of the Feather River, July 4, 1848—the second major gold discovery in California. Both quartz and placer mining are still important industries here.

The Oroville district produces over one half the olive oil manufactured in the United States. Her three olive processing plants pack one-third of the nation's processed ripe olives.

Because of ideal topographic and climatic advantages Oroville produces the earliest navel oranges in the state. Smudge pots or orchard heating have never been resorted to by citrus growers of this section. Valley fog is an oddity here.

Favored by an abundance of cheap water the Oroville area boasts of thousands of foothill and valley acreages under irrigation ideal for deciduous fruits, citrus, nuts, and a tremendous increase in olive production.

Agriculture, lumber, mining, stock and a natural gateway to an unsurpassed recreational region places Oroville among Nature's truly blessed.

Directory of Householders

Occupants of Office Buildings and Other Business Places

Including a Complete

Street and Avenue Guide

1945

Copyright, 1945, by R. L. Polk & Co.

In the following list the streets are arranged in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the streets are included in one list. The profession or business of individuals or firms is given only at their respective places of business; to find occupation of others refer to Alphabetical List of Names.

Numerical streets are compiled following the Named Streets.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be assumed, nor can the publisher furnish further information than that shown.

The symbol ♎ preceding name denotes householders and places of business having telephones.

Advertising Will Do It!

Many a limping business is kept from healthful development by the morbid aversion of one of a firm's members to publicity—perhaps he is honestly so conscious of the excellency of his wares that he expects the world to search them out. But the busy world hasn't time. If you have a good thing to sell proclaim it from the housetops. The world wants good things, but it can't discover them in hiding places. Bring them into the market place.

EVERY STORE . .

should appear in the Directory and the Directory should be in Every Store. Besides its use to the storekeeper, it is a convenience the customer looks for. The store that offers an old Directory, or no Directory at all, fails to show its patrons a courtesy they will find elsewhere.

When People "Want" ! !
THEY LOOK IN THE
CITY DIRECTORY
(CLASSIFIED SECTION)

Is your name under the commodity they seek?

If not, that opportunity of routing valuable business to you is lost. It's about the same as if you kept one of your entrance doors locked.

Hadn't you better investigate your omnipresent city directory and convince yourself of how it can help your business?

When You Borrow a Directory

You are not only stealing a little of your friend's valuable time but you are using a portion of his capital for your business. You are wasting some of your time, and you miss the satisfaction of the man who stands on his own feet. Better buy your Directory.

Do You Know That A Copy Of This Directory

is being placed in the Directory Libraries and among the commercial bodies, business men's clubs, chambers of commerce and the larger business institutions throughout the United States.

No other medium on earth can convey so complete and comprehensive an index of the city, its various industries, its business, educational and religious institutions, its social life and its people.

No other medium can tell so fully of its wonderful growth, its opportunities, and its possibilities for the future.

The Services of R. L. Polk & Co.

DIRECTORY PUBLISHERS FOR 900 CITIES	• For seventy-five years, Polk City Directories have been the accepted basis for population listings in hundreds of American Cities. Each Directory . . . reports families, homeowners, business firms, civic organizations, public and private institutions within the city. These extensive operations have gained for the Company the reputation of DIRECTORY SPECIALISTS. Polk cooperates in the maintenance of City Directory Reference Libraries throughout the United States and Canada. *After the War, Polk directories will continue to be the standard for the cities of the Country . . . tracing the shifting of America's families from wartime to peacetime endeavor.*
BANKING AND FINANCIAL REPORTING	• Polk's Bankers Encyclopedia has linked the financial world for over a half century. Issued semi-annually, this comprehensive report of the nation's banks, investment dealers and brokers, life insurance companies and foreign banks . . . is recognized as *The Bank Directory*. Polk also prepares special reports for the banking field, together with daily, weekly and monthly services. *Postwar business operations will require the forwarding of many financial items for the handling of domestic and foreign transactions . . . Polk's Bankers Encyclopedia will continue as the guide to the financial world.*
DIRECT MAIL ADVERTISING FOR THE COUNTRY'S LEADING INDUSTRIES	• Polk's Direct Mail Advertising Division—one of the world's largest—specializes in high-quality, productive advertising America's greatest industries are Polk's long-time clients. Polk's direct mail advertising service is *complete* . . . consultation, research, testing, creating, printing, producing, and distributing to *selected prospects*. A live organization of experienced business men who know the principles of selling. Production plants are geared to handle better than two million mailings daily. *In the postwar sales era, the direct mail advertising services of R. L. Polk & Co. will be geared to help its clients produce the increased sales volume necessary to the postwar economy. Plant capacity will be greatly increased, new skills will be added.*
AUTOMOBILE AND BUSINESS STATISTICAL HEADQUARTERS	• Since 1922 Polk has been statistician for the Automobile Industry. Polk total count of passenger cars, trucks, motorcycles and trailers by make, by year model is the only annual inventory of the country's automotive equipment. Polk's new passenger car and truck reports furnish manufacturers and dealers with a monthly recapitulation of all sales for each territory. The first business census of the U. S. was a Polk project, giving statistics covering the number of manufacturers, wholesalers and retailers for each state, county and town in the U. S. *These statistical services again will be available to American business at the end of the war, to enable them to plan intelligently their production, distribution and sales programs.*
SURVEYS AND CONSUMER RESEARCH	• Polk's facilities are the largest in the country for fast, accurate research, surveys, and analyses, built on experience gained through nationwide home and business canvasses each year. Polk's Branch Plants, Branch Offices, and associated offices in strategic cities all over the United States are staffed with trained personnel, *able to move fast*, on any job. *In the postwar era, Polk Consumer Research facilities will be even greater . new experience will be available to the businesses of America.*
NATIONAL MAILING LISTS AND MAILING SERVICES	• The people of America are in Polk's list files . . all businesses, all trades, professions and vocations . . obtained through personal canvass. Polk also lists all passenger car, truck, commercial car, trailer, motorcyle owners—by make of car, by model, by year, by state, county, town. Know-how gained in filing more than 75 million names annually is available to Polk clients, for any kind of list or mailing service. Facilities for multigraphing, ditto, photo-offset, letterpress printing, reproduction of forms, questionnaires or letters and complete addressing, imprinting and mailing services are available at Polk Headquarters or Branch Production Plants in strategic cities. *After the War, these lists will be the customer lists for the new products of Peacetime America . . . the prospects for every industry's production. Polk can reach them DIRECT for you, with the right kind of sales-producing message.*
WAR WORK	• After Pearl Harbor, the major plant service and skills of R. L. Polk & Co. were at the disposition of the armed services, for war work. Since the war began, Polk has been entrusted with two of the largest and most complicated war jobs, for Army Ordnance and Air Corps, requiring tripling of Polk's plant space, plus the services of most of Polk personnel. Until the War is won, Polk's major effort will be devoted to these war tasks. *With Peace, the Polk plants and the Polk skills again will be released for the job of helping the industries of America rebuild a stronger business structure, and upon these skills will be built a new and even greater Polk organization!*

These extensive operations have gained for the Company the reputation of DIRECTORY SPECIALISTS. Polk cooperates in the maintenance of City Directory Reference Libraries throughout the United States and Canada.** *After the War, Polk directories will continue to be the standard for the cities of the Country . . . tracing the shifting of America's families from wartime to peacetime endeavor.*
BANKING AND FINANCIAL REPORTING	• Polk's Bankers Encyclopedia has linked the financial world for over a half century. Issued semi-annually, this comprehensive report of the nation's banks, investment dealers and brokers, life insurance companies and foreign banks . . . is recognized as *The Bank Directory*. Polk also prepares special reports for the banking field, together with daily, weekly and monthly services. *Postwar business operations will require the forwarding of many financial items for the handling of domestic and foreign transactions . . . Polk's Bankers Encyclopedia will continue as the guide to the financial world.*
DIRECT MAIL ADVERTISING FOR THE COUNTRY'S LEADING INDUSTRIES	• Polk's Direct Mail Advertising Division—one of the world's largest—specializes in high-quality, productive advertising America's greatest industries are Polk's long-time clients. Polk's direct mail advertising service is *complete* . . . consultation, research, testing, creating, printing, producing, and distributing to *selected prospects*. A live organization of experienced business men who know the principles of selling. Production plants are geared to handle better than two million mailings daily. *In the postwar sales era, the direct mail advertising services of R. L. Polk & Co. will be geared to help its clients produce the increased sales volume necessary to the postwar economy. Plant capacity will be greatly increased, new skills will be added.*
AUTOMOBILE AND BUSINESS STATISTICAL HEADQUARTERS	• Since 1922 Polk has been statistician for the Automobile Industry. Polk total count of passenger cars, trucks, motorcycles and trailers by make, by year model is the only annual inventory of the country's automotive equipment. Polk's new passenger car and truck reports furnish manufacturers and dealers with a monthly recapitulation of all sales for each territory. The first business census of the U. S. was a Polk project, giving statistics covering the number of manufacturers, wholesalers and retailers for each state, county and town in the U. S. *These statistical services again will be available to American business at the end of the war, to enable them to plan intelligently their production, distribution and sales programs.*
SURVEYS AND CONSUMER RESEARCH	• Polk's facilities are the largest in the country for fast, accurate research, surveys, and analyses, built on experience gained through nationwide home and business canvasses each year. Polk's Branch Plants, Branch Offices, and associated offices in strategic cities all over the United States are staffed with trained personnel, *able to move fast*, on any job. *In the postwar era, Polk Consumer Research facilities will be even greater . new experience will be available to the businesses of America.*
NATIONAL MAILING LISTS AND MAILING SERVICES	• The people of America are in Polk's list files . . all businesses, all trades, professions and vocations . . obtained through personal canvass. Polk also lists all passenger car, truck, commercial car, trailer, motorcyle owners—by make of car, by model, by year, by state, county, town. Know-how gained in filing more than 75 million names annually is available to Polk clients, for any kind of list or mailing service. Facilities for multigraphing, ditto, photo-offset, letterpress printing, reproduction of forms, questionnaires or letters and complete addressing, imprinting and mailing services are available at Polk Headquarters or Branch Production Plants in strategic cities. *After the War, these lists will be the customer lists for the new products of Peacetime America . . . the prospects for every industry's production. Polk can reach them DIRECT for you, with the right kind of sales-producing message.*
WAR WORK	• After Pearl Harbor, the major plant service and skills of R. L. Polk & Co. were at the disposition of the armed services, for war work. Since the war began, Polk has been entrusted with two of the largest and most complicated war jobs, for Army Ordnance and Air Corps, requiring tripling of Polk's plant space, plus the services of most of Polk personnel. Until the War is won, Polk's major effort will be devoted to these war tasks. *With Peace, the Polk plants and the Polk skills again will be released for the job of helping the industries of America rebuild a stronger business structure, and upon these skills will be built a new and even greater Polk organization!*
